Computational
processes in machine
learning

Practical and aesthetic
considerations in
applying machine
learning to artistic
problems

Authenticity of this Certificate of Accomplishment can be verified at: <https://www.kadenze.com/certificates/verified/6VEYWR97>

To receive a Certificate of Accomplishment, participants must meet all course requirements and be able to demonstrate required knowledge and skill through online assessments. **Verified:** To ensure academic integrity, the identity of all registered members is verified by Kadenze on an ongoing basis. **Please note:** Some online courses may draw on material from courses taught on-campus but they are not equivalent to on-campus courses. Participants who are currently enrolled or have completed courses offered by Kadenze or any Kadenze institutional partner are not to be considered registered students of the issuing universities. This statement does not affirm that this participant was enrolled as a student at Goldsmiths University of London in any way. It does not confer a Goldsmiths University of London grade, course credit, or degree, and Goldsmiths University of London has not verified the identity of the participant.
